

# Occupant GUARD

Powered by QuickSeries

## Staff & Facility Safety Preparedness

### With our OEP mobile app

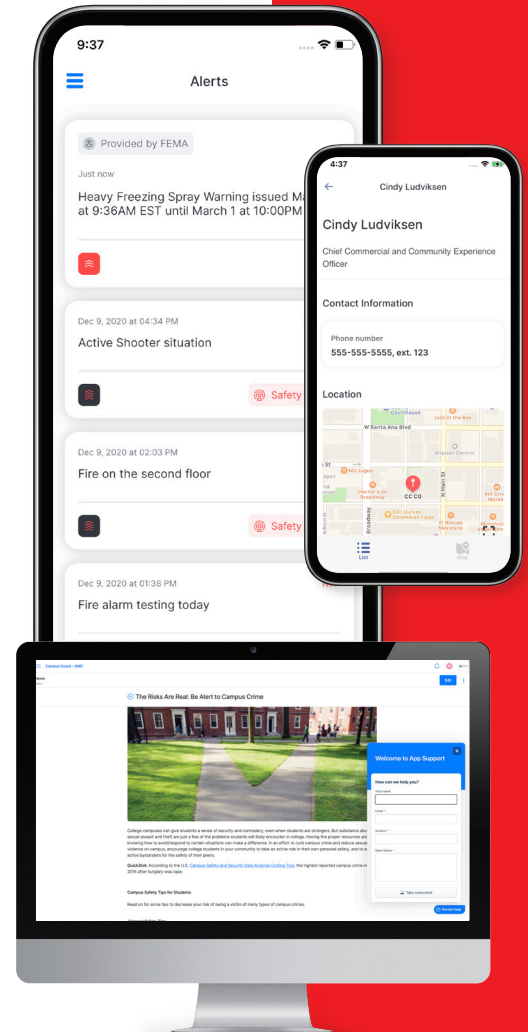

Where are your people, and are they safe?  
Would they know what to do if disaster struck?

Ensuring the safety of the people in your organization is your most important responsibility. In an emergency, informed and well-prepared employees are safe employees. Give them the know-how they need to stay safe in any disaster, anywhere.

The QuickSeries® **OccupantGUARD** App provides vital information and efficient communication before, during and after an emergency.

- Alert app users to weather-related events and active threats.
- Prompt employees to check in during or following an emergency event. See who is safe and who needs help in real time.
- Push news about changes to workplace policies and security measures.
- Provide important workplace contacts.
- Increase preparedness among your staff and their families.
- Deliver authoritative QuickSeries® content.
- Create your own vibrant content with an easy-to-use, dynamic Authoring Tool CMS.

Offer your employees the tools and resources they need to know how to plan for safety at work, while traveling and at home.

### Resource Hub

Provide your employees with your choice of preloaded authoritative QuickSeries® content.

### Communication Tool

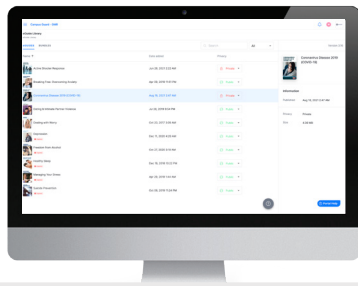

Develop your own custom material with a user-friendly Authoring Tool CMS and distribute it to targeted audiences all year round.

### Accountability

Use the Safety Check feature to request that employees notify administrators of their status during and after an emergency.

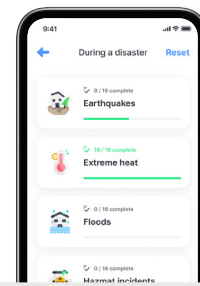

# Your OccupantGUARD App includes:

## Admin Portal

Your app's command center:

- Secure login for an unlimited amount of admin users
- No software to download
- Maintain content yourself for instant updating

## App

Preparedness know-how on the go:

- Instant updates and alerts
- Offline access to vital information
- In-app access to resources and tools

## OccupantGUARD Modules

### eGuide Library

Supply authoritative content selected from the QuickSeries® content suites.

### News

Provide articles and RSS feeds, and notify all users at once with push notifications.

### Resources & Mapping

Deliver searchable and categorized resources with a map view.

### PDF Library

Offer convenient in-app access to workplace policies and emergency operation plans.

### Video Library

Provide streaming access to relevant videos.

### FAQ

Allow users to browse questions and answers on disaster preparedness and emergency planning.

### Module Access Codes

Control access to content and functionality on a feature-by-feature basis.

### Make Your Plan

Encourage users to prepare their families with information and tools they can use at home.

### Mobile User Registration

Tailor the app experience to the people in your organization with invitation-only access.

### Forms & Reporting

Collect critical in-the-moment information directly from members of your staff.

### Assessments

Create quizzes and tests users can take to evaluate risk or assess knowledge.

### Authoring Tool CMS

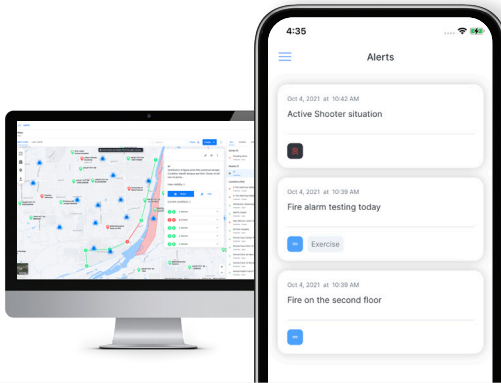

Transform plain documents into visually appealing and engaging interactive eDocs.

### Event Schedule

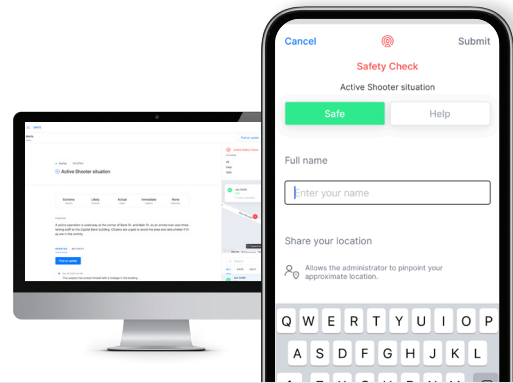

Inform app users about the who, what, where and when of can't-miss events with this go-to calendar.

## Must-Have Personal Safety Functions Included

### Alerts

Alert all app users to imminent or ongoing emergencies and update and end alerts as the situations evolve. Prepare staff with practice drills.

### Safety Check

Prompt app users to check in following an alert with a one-touch "I am safe" or "I need help" message.

## Preparedness Content Suites

**Each QuickSeries® content suite contains several specifically curated eGuide titles. Three eGuides of your choice from the following suites are included with your app. Add more titles to expand your community's library.**

### Weather Emergencies

- Be emergency-ready for any natural disaster that can strike your area – from hurricanes and floods to earthquakes and wildfires.

### At Home / Family Ready

- Learn how to prepare your entire family – parents, kids, family members with special needs, and pets alike – for natural and man-made disasters.

### Preparedness Planning

- Give your employees the tools they need to effectively prepare for, plan for and respond to any type of disaster – from tornadoes and earthquakes to hazardous materials and terrorism.

### At Work

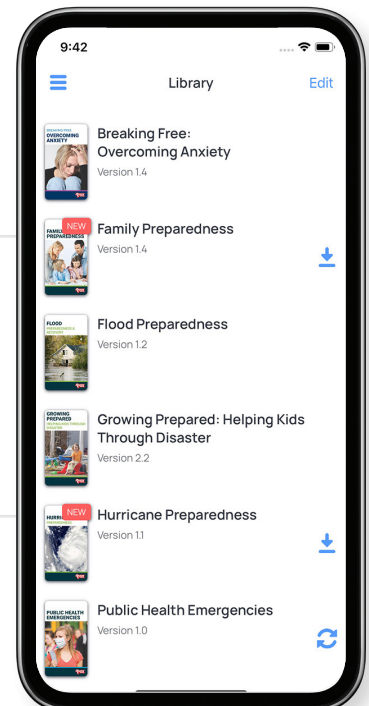

- Help employees feel safe and secure on the job. Give them the knowledge they need to stay safe during any emergency situation or threat.

### Active Threat

- From active shooter events to unexpected explosions, empower citizens with the knowledge they need to keep themselves safe.

### Recovery

- Get valuable information on dealing with the aftermath: cleaning up, filing insurance claims and emotional healing.

# Integrating reliable content and software innovation

Be accountable for  
employee safety at  
work, at home and  
on the road.
