

**UNITE**

Powered by QuickSeries

Keep Your Community Connected with **UNITE**

Built for all communities and budgets, the QuickSeries® UNITE app delivers accurate information and resources during an emergency. Use it to **enhance preparation, communicate news** and **motivate action**.

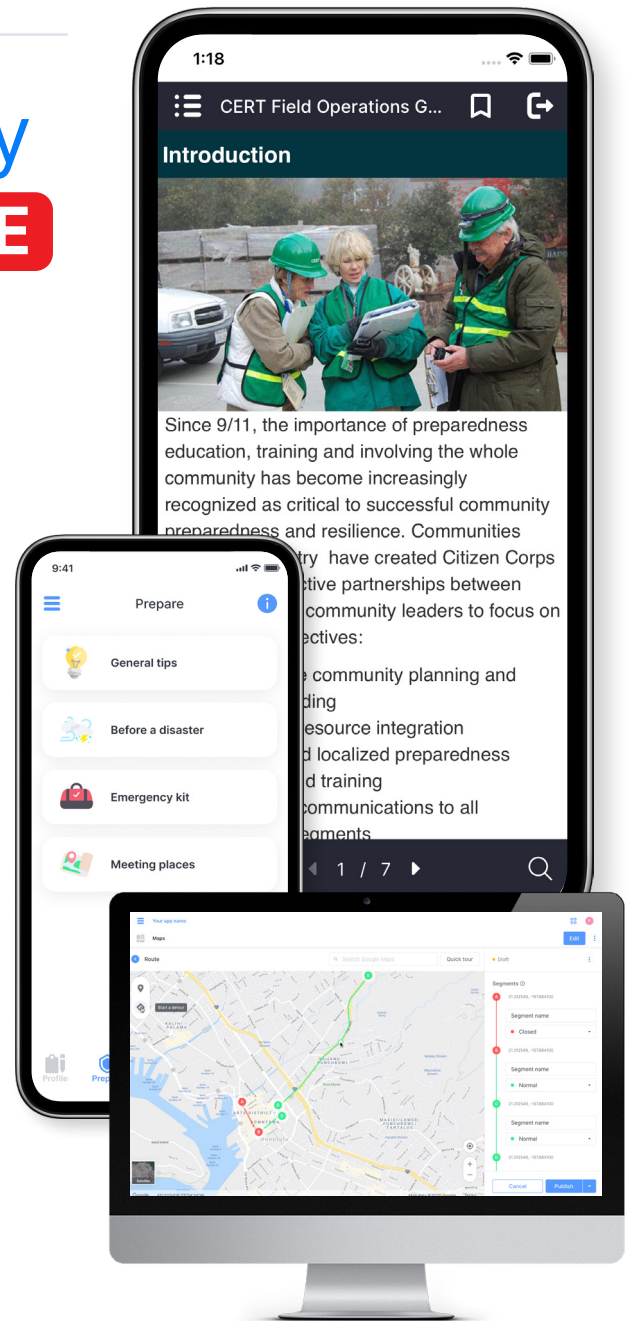

Why UNITE? The UNITE app is an emergency management tool, but it also serves to unite community members and promote solidarity all year round. In municipal Public Works and PR offices, UNITE becomes an interdepartmental asset, assisting with confident planning and organization.

QuickSeries technology is created with content delivery in mind. We use practical app functions to **make reliable content accessible to everyone**.

With UNITE, you can:

- Prepare users with custom alerts and geo-targeted FEMA and NWS notifications.
- Prepare families with household plans, checklists and assessments.
- Create tailored content with an Authoring Tool CMS.

UNITE combines content and technology to help your people live healthier, safer lives every day – not just in an emergency.

One Solution – Many Tools

Our mix of modules and features has you covered.

Planning Made Simple

Community members can easily create household emergency plans. Personalized checklists help app users shop for supplies and prepare go-kits.

Knowledge Library

Expand your resource library with informative eGuides and PDFs. Unlock certain eGuides for specific users with the bundle code feature.

Map Routes, Shelters & Services

Provide real-time information on evacuation routes, shelters and services. Add points of interest and update app users instantly.

Alert Your People

Broadcast geo-targeted alerts, updates and notifications in the languages your people need.

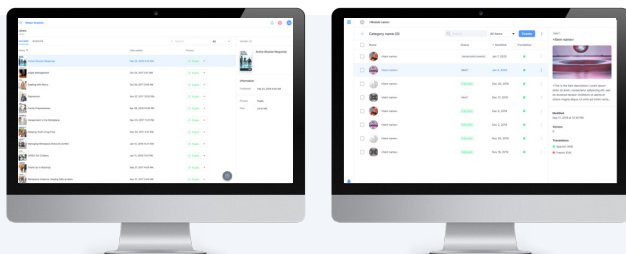

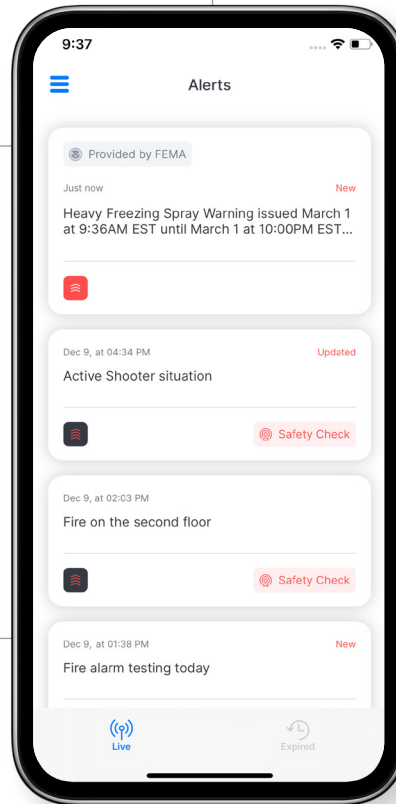

Instant Feedback

Gain insight from your people with modules that encourage two-way communication. Promote the use of forms and reports to engage app users in outreach efforts.

Address Everyone from One App

Build personalized workspaces in your app for users to access regional or departmental content.

User-Friendly Portal

The administrative portal lets you manage your app from any browser. Changes in the portal appear in the app instantly, and app users can be notified in real time.

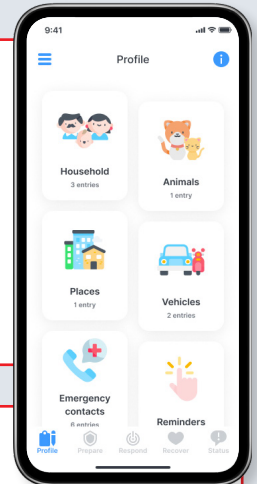

Customized Content

Transform simple documents into engaging, interactive pieces. The included Authoring Tool CMS helps you create and publish fresh content effortlessly.

Safety-driven modules within a one-app delivery put vital information at every citizen's fingertips.

Make Your Plan

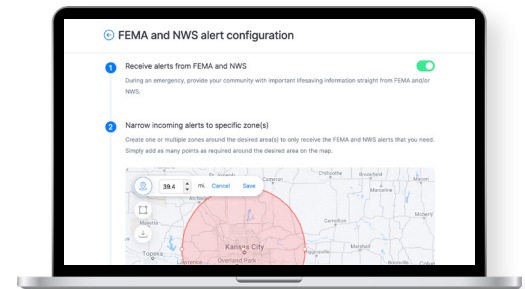

- Give households the ability to organize and prepare beforehand:
- After information is entered, plan specifics are automatically generated according to best practices.
 - Plan is displayed in three distinct sections, each with steps to guide preparation, response and recovery efforts.

Alerts

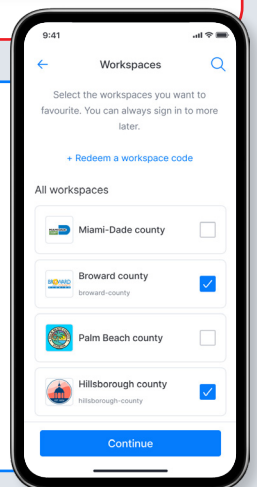

Alerts are used to notify users of current/imminent incidents, emergencies and disasters.

- Update/end alerts as situations evolve.
- Prompt users to check in following an alert with a one-touch "I am safe" or "I need help" message.
- Seamlessly integrate FEMA and NWS feeds into your Alerts module. Send geo-targeted push notifications once users accept alert tracking and/or enter one or more zip codes.

Workspaces

- Users access regional and/or departmental content in your app.
- Address all your users by publishing content globally to all workspaces.
 - Grant admins access to publish content to individual workspaces.
 - Users subscribe to relevant content based on their current locations.
 - Toggle between your subscribed workspaces in the side menu, changing the app experience.

Community-Specific eGuides

Users easily interact with eGuides via built-in features, including menus and bookmarks. Your UNITE app comes **preloaded with three eGuides** that you may choose from our extensive eGuide library.

Ready-to-Launch Content Packages

Our Content team has built packages that allow you to bring immediate information to your people. Each package contains a minimum of five news articles, three checklists, two video links, one assessment and one FAQ.

Choose the right package for your people.
